

ACTIVITY REPORT 2018

During 2018 we mostly concentrated on education, supporting students at universities and helping with exam fees at GCSC and A levels. A special thank you is given to all the kind knitters, enabling us to distribute much needed jumpers, cardigans, hats and scarves. Ploughing, as usual, was a great success towards providing food for many families with small children.

We also would like to express our gratitude to both young and regular volunteers who assisted in the local schools and community. Donations of food, medicine, water, shoes, school uniforms counted among our activities too. A community sewing group received fabrics and a sewing machine, hence providing them with a small income. All in all, again, a very busy year with three months of local presence to instigate and supervise the many projects personally.

On behalf of all at SHIP our sincerest thanks for all the support received, past and present.
