## ACTIVITY REPORT 2017

We are happy to report that during March 2017 the rains have returned and by the latter part of the year the community was ploughing again. We estimate that until the early part of 2018 food support is still needed together with more funding for ploughing. The other projects received our attention too and we carried on with distributing clothing, the clinic, volunteering in the local primary school, just to mention a few. Mainly we concentrated on supporting students in their GCSE and A level studies as well as supporting preschools with much needed school supplies exam fees and uniforms. A teacher training course is also supported by Ship. The dairy project is going from strength to strength, a further two calves are expected by early 2018. A very successful and busy year again.

Thank you very much for your support to enable Ship to carry on with our endeavours.
